

HUD's Office of Native American Programs Training Announcement

Residential Endorsement Training

May 8-10, 2018

Registration and sign-in begins at: 8:00 AM

Instruction begins at 8:15 AM - 5:00 PM

Overview

AAHA will host a three (3) day intensive workshop, presenting energy-efficient building techniques for builders, designers, planners, and homeowners. It is an excellent opportunity to learn the latest construction methods related to residential energy efficiency. This course meets the State of Alaska Division of Occupational Licensing educational requirements that qualify general contractors to take the state Residential Endorsement exam (**to be eligible participants must be present for the entire training**). The building technologies introduced are based on energy conservation through the use of insulation, air/vapor retarders, insulating windows, and controlled ventilation systems, among other methods.

Trainer

Jim Ward brings over 30 years of professional building and energy efficiency consulting experience to this class. He serves as a subject matter expert on technical advisory and code review committees for the Municipality of Anchorage, the Cold Climate Housing Research Center and the Alaska Craftsman Home Program.

Who should attend?

Construction and Rehabilitation staff, Housing Directors, Maintenance Staff, Weatherization Staff, Homeowners and Homebuyers.

Location: The Westmark Hotel
831 Noble Street
Fairbanks, AK 99701
(907) 456-7722

**DISCOUNTED RATES available for attendees of
Association of Alaska Housing Authorities training**
